### SMIC Reports 2010 Fourth Quarter Results

*All currency figures stated in this report are in US Dollars unless stated otherwise.  
The financial statement amounts in this report are determined in accordance with US GAAP.*

Shanghai, China – February 17, 2011. Semiconductor Manufacturing International Corporation (NYSE: SMIC, HKEX: 0981) (SMIC or the Company) one of the leading Semiconductor foundries in the world today announces its consolidated results of operation for the three months ended December 31, 2010.

**Fourth Quarter 2010 Highlights:**

- Revenue up by 0.4% to \$411.8 million in 4Q10 from \$410.1 million in 3Q10 and up by 23.6% compared to 4Q09.
- Gross margin was 23.9% in 4Q10 compared to 24.5% in 3Q10 primarily due to an increase in other manufacturing costs.
- Net cash flow from operations has increased to \$248.6 million in 4Q10 from \$125.2 million in 3Q10.
- Income attributable to holders of ordinary shares was US\$68.6 million in 4Q10, compared to income of US\$30.4 million in 3Q10.
- Diluted EPS was \$0.13 per ADS.

**First Quarter 2011 Guidance:**

The following statements are forward looking statements which are based on current expectation and which involve risks and uncertainties some of which are set forth under Risk Factors below

Revenue is expected to decline between 1% to 3% compared to 4Q10.  
Gross margin is expected to range from 23.5% to 24.5% in 1Q11.  
Operating expenses excluding foreign exchange differences are expected to range from \$125 million to \$135 million.  
Capital expenditures to be around \$1 billion.

Commenting on the quarterly results Dr. David NK Wang, President and Chief Executive Officer of SMIC remarks, "2010 was a year of achievement for SMIC. For Q4, I am pleased to report that SMIC continues to be profitable for the third consecutive quarter and has achieved its first profitable year at both operational and net income levels after 3 years of losses. I would like to thank SMIC employees for their efforts which results in enhanced customer relations, successful advanced technology ramp up and overall effective execution. Given we record a historical high annual revenue of more than \$4 billion for 2010 representing a year over year growth of 43%. Fourth quarter gross margin of 23.9% exceeds our guidance. This was achieved by 23.9% gross margin for the full year of 2010 which is the highest gross margin performance achieved since after the year of IPO. Furthermore, we received various awards recognizing our high level of performance and service quality and improvement of the same from our top customers. We are gaining momentum in negotiating with key customers on both legacy and advanced technology. All of this shows we have made significant progress compared to 2009. We have confidence that our momentum will continue through 2011 and onward."
